Project: Tranmere Rovers Training Ground – Solar Campus

“ The safety of our staff and visitors is of utmost importance to us, therefore it was essential we installed quality products that meet the latest building standards and regulations. As such, Gradus stair edgings were a perfect fit. Not only do they look great, but we have the added reassurance that they have been manufactured by a company with over 50 years experience. ”

Peter Shaw
Chief Operating Officer at Tranmere Rovers

A range of Gradus products have been installed at the new Tranmere Rovers training ground – Solar Campus. The three-story facility is equipped with seven changing rooms, as well as a state-of-the-art gym and physiotherapy suite. The second floor is dedicated to Tranmere College and has three large classrooms.

To help reduce the risk of slips, trips and falls, GXT51 from Gradus' market-leading XT range of stair edgings are installed to all staircases. XT stair edgings feature an extended slip-resistant insert at the leading edge of the profile to increase underfoot contact with the slip resistant element of the stair edging. Selected with Breeze Xtra-grip inserts to define the step edge by providing a suitable colour contrast with the carpet in line with BS 8300:2009+A1:2010 and Approved Document M of The Building Regulations 2010, Xtra-grip inserts offer increased surface roughness for added slip-resistance from the wet muddy boots coming in from the training pitches.

Boulevard 6000 secondary barrier matting in colours Atlantic and Walnut has been installed to all side entrances. Boulevard 6000 features a heavy scraper yarn for optimum dirt removal which helps to reduce the amount of dirt and moisture tracked into the building from the pitches and around the site, whilst the patterned design helps to disguise the effects of soiling.

Latour carpet tiles in colours Coniston and Arfon have also been installed throughout the new training facility which helps to create a fresh and contemporary environment for all building users.

Product Specified:

- [GXT51](#) – aluminium stair edgings with Breeze Xtra-grip insert
- [Latour carpet tiles](#) – colours: Coniston 03420 and Arfon 03404
- [Boulevard 6000 secondary barrier matting](#) – colours: Walnut and Atlantic
