**Gerflor & Gradus -
The Care Home Specialists**

With over 100 years of combined experience in the contract interiors sector, together we have built an unrivalled reputation for quality and service.

The **Gerflor group** is well known as a credible and valued supplier of complete flooring solutions for both commercial and residential markets. This makes Gerflor a great partner for the Care Home sector as all types of buildings and finishes can be catered for. Whilst maintaining the technical performance and the design

aspect of our floorcoverings, Gerflor manufacture ranges with the environment in mind, as well as the health and wellbeing of end users. We have recognised brands ideal for many environments, including our Mipolam, DLW, Carezone, Tarasafe, Taraflex®, Taralay and GTI flooring ranges.

Gradus is a UK manufacturer of contract interior solutions, these include wall protection, stair edgings, floor trims, barrier matting and LED lighting. Gradus control the design from initial concept through to finished products including specialist CAD design and the manufacture of tooling. This ensures that quality

is maintained and provides customers with an efficient, flexible, and fast service.

Our tried and trusted Care Home Solutions

Complete Solution

Gerflor and Gradus can offer a complete floor and walls solution that can contribute to a clean and safe building environment.

Gerflor and Gradus Services

Technical & Specification Support Specialists

Our dedicated specification managers are able to assist you with all your specification needs. Whether it's a new build or refurbishment project we have the expertise and innovations to meet all budgets. Hand in hand with our partners, we work together to propose the optimum solution for the clients needs utilising the most appropriate safe, hygienic and sustainable solutions for the specific applications. We don't stop at just providing specification advice, we can also provide a free site survey, we will visit, assess and audit the facility and make improvement to future proof the building interiors.

The Technical Support team is available to offer advice on the specification and installation of products, including guidance on the latest healthcare building standards and legislation. Be rest assured that Gerflor and Gradus have a world class pedigree of products that are tried and trusted and deliver each and every time, all backed up by a network of technical, specification and customer support teams.

Sampling Support Services For Every Need

We offer a free sample service for all our clients. Whether it's a range overview binder, loose sample (standard or bespoke), supporting literature or if it is something bespoke you need like a mood board or test material, contact us and we will aim to supply the sample for your required need. To request an actual sample, literature or anything else, email contractuk@gerflor.com or call 01625 428922 or visit the sample website by clicking here [FREESAMPLES](#)

Specification Documents and BIM Objects

As an NBS partner you have access to a single source for product information and incorporates the Gerflor and Gradus products. NBS Source provides an additional level of enhanced product data, in a consistent, structured format that will integrate seamlessly into your project workflow.

Key considerations when selecting Flooring and Stair Edging products for Care Home environments

- ✓ Excellent Slip Resistance properties to reduce the risk of potential slips and falls – select insert suitable for the environment.
- ✓ Cleaning & Maintenance – ability to withstand heavy cleaning and maintenance regimes
- ✓ LRV is of particular importance in these areas. Colour contrast between floorcovering and stair edging must achieve a 30-point LRV difference as a standard industry requirement
- ✓ Fixing Method – install with Gradus Grip stair edging adhesive for a hygienic solution and allowing easier maintenance and lower life cycle costs

Options shown are a small selection, full colour range available on our website.

1) An innovative corner system

A total and complete solution for installing corners that aids the control of contamination

Controlling contamination in general Care Home environments as well as ultra clean areas such as burns units, pharmacies and operating theatres is always a challenge. Corners, in particular, are where most of the imperfections are found:

- Their shape makes cleaning and decontamination difficult
- Poorly welded, they can tear or sag under the weight of traffic
- Weakened by use, they end up losing their water-tightness

In partnership with cleaning professionals, Gerflor has developed Clean Corner System: a patent pending innovative corner solution. Years of research and development have led to Clean Corner System (Gerflor only validate this system with Gerflor products). Thanks to ultra-resistant and versatile profiles (Photo 1), Clean Corner System is suitable for all your projects, and delivers perfect results (Photo 2).

Innovations for Clinical Care Home Environments

2) Surface treatments for vinyl

Our surface treatments are perfect for Care Home environments with unrivalled levels of chemical & stain resistance, reducing maintenance time and costs.

Evercare™ is an exclusive surface treatment obtained by UV laser cross-linking. This means no waxing or polishing is needed to maintain a floor's appearance or colour brightness, reducing maintenance costs and lowering the environmental impact.

Protecsol® is a surface treatment that delivers stain resistance. It has been tested and approved for over 20 years, is easy to maintain and has no metallisation for life, saving on water and detergents.

For additional information on other surface treatments PUR, Sparclean® and PUR+ please contact us for further details.

VCT

Highly durable: Exclusive surface treatment applied by UV laser cross-linking provides superior durability and an even surface thickness, creating an impenetrable barrier against stains and chemicals. Longer life expectancy.

Water-repellent effect: The surface treatment creates a 100% non-porous barrier to prevent all liquids and chemicals from penetrating the materials, remaining on the surface. Simple and easy stain removal.

Innovations for Clinical Care Home Environments

3) Surface treatments for linoleum

Our surface treatments are perfect for Care Home environments with unrivalled levels of chemical & stain resistance, reducing maintenance time and costs.

New solvent-free surface protection developed exclusively for DLW Linoleum.

Extremely hard wearing due to triple laser UV cross-linking.

Easy to Clean

- Dirt and stain barrier
- Cost effective maintenance
- Easy cleaning with a mop or any modern cleaning equipment

Detailed cleaning protocol available on www.gerfor.com
