Castor Chair BSEN 985 Part A	Pass
IBM/ICL	Pass

Flammability

BSEN 13501-1	Bfl-s1
--------------------	--------

ISO 14001 : EMS 59511
ISO 9001 : FM 10763

For further information and recommended adhesives please contact Technical Services on 01625 428922. Gradus recommends the use of [Gradus XT stair edgings \(www.gradusxt.com\)](http://www.gradusxt.com) to provide durability, definition and safety for stairs (in line with The Building Regulations 2000 - Approved Document M and BS8300:2009) and [Gradus Barrier Matting](#) to maintain the appearance of the carpet and reduce maintenance costs.

Light Reflectance Values (LRVs)

These values have been determined with reference to the CIE Tristimulus Y_{sp} illuminant D65 and the 10° colorimetric observer, in accordance with BS8493 : 2008. The Y co-ordinate represents lightness and extends from 0 (black) to 100 (white) and has been used as a measure of light reflectance values (LRVs).

All Gradus products have an LRV rating, including stair edgings, skirtings, matting & wall protection, to aid with creating an inclusive environment in line with the Disability Discrimination Act (DDA). Individual colour sheets are available from Gradus customer support. For additional information or advice on LRVs, how they relate to Gradus products or a copy of a test report contact Gradus customer support on 01625 428922.
