Project: Nuffield Health, Cheltenham Hospital

“ Cityscene was installed in the reception area and complements the surrounding interior, helping to create a welcoming and relaxing environment for both patients and staff. ”

Karen Burman
Floorcoverings Product Manager

Opened in 2000, the Nuffield Health Hospital in Cheltenham has 3 major theatres and 33 en-suite bedrooms, providing the latest in treatment facilities and diagnostic technology. Nuffield Health, formerly Nuffield Hospital, has invested in a full refurbishment of the reception area, as part of a re-branding exercise to reflect the fresh and wider focus of Nuffield Health.

Gradus' Cityscene carpet tiles in a neutral colourway - Raffia, were installed in the seating areas of the reception, providing visitors and patients with the comfort and warmth of carpet.

The attractive textured loop pile design can be installed quarter turn; broadloom or brick bond, providing a high level of style and versatility. This helps to save time on refurbishments, where limiting disruption to the end-user is a priority.

The Cityscene carpet tile range is available in 9 contemporary colours and offers a high level of style and versatility for a wide range of environments including commercial, hospitality, retail, healthcare and education.

Product Specified:

- Product: [Cityscene](#) (colourway - Raffia)
- Construction: Tufted Loop Pile
- Fibre: 100 percent INVISTA™ Polyamide 6.6 DSDN™
