Description

Gradus Wall Strips are easy to install and versatile PVC-u protection strips that offer medium duty protection against impact, abrasion and scrapes. Wall strips can be used along the entire length of a wall or alternatively cut down to use as kickplates or pushplates. Available with tape for quick and easy installation or without tape for installing with a suitable adhesive. Wall strips are non-reflective, through-coloured and textured to conceal the effects of impact and abrasion. Light Reflectance Values (LRVs) are detailed above for all colours.
