Stainless Steel Bollards

450 Timber Handrail and Stainless Steel Wall Guards, Rubrails and Kickplates

## Gradus wall protection systems

### Products & Colours Specified:

Stainless Steel Wall Guards  
Stainless Steel Rubrail & Kickplates  
Stainless Steel Corner Guards  
450 Timber Handrail - Colour: Oak 402

### Application:

A complete wall protection system from Gradus has been installed at the newly refurbished Lysholm Department of Neuroradiology at the National Hospital for Neurology and Neurosurgery (NHNN).

Supplied and fitted by the Gradus Contracts Team, the system includes wall guards, corner guards, kickplates and bollards from the stainless steel range, plus handrails from the 450 timber range, which is designed to meet guidelines in Approved Document M, BS8300:2009 and HBN00-04. All products will help to reduce on going repair and maintenance costs and improve the long-term appearance of the interior environment while protecting the surfaces from heavy to severe impact and abrasion caused by beds, trolleys and medical equipment.
