Description

Elite Range

A range of attractive and hardwearing stair edgings comprising of aluminium channels with fusion bonded slip resistant inserts. Suitable for interior use, the Gradus Elite range of stair edgings offers a concealed fixing as the inserts are bonded into the channel on site using a specialist double sided tape which is pre-bonded to the insert. A mechanical lock provided by the use of locating points also provides added reassurance. Typically used with heavy resilient floorcoverings and carpet from all major manufacturers, Elite aluminium stair edgings are suitable for all commercial and most industrial applications.
