

The Specification & Design Considerations of Barrier Matting Systems

Learning Aims

Why specify a Barrier Matting System

- Increase public safety
- Remove dirt and moisture
- Reduce maintenance costs

Standards and guidance

- Building Regulations, British Standards

Where to specify a Barrier Matting System

- Primary, Hybrid & Secondary Matting
- Why different types of matting are required at each zone.

How to select a Barrier Matting System

- Foot traffic
- Wheeled Traffic
- Type and performance of matting
- Amount of matting

RIBA Core Curriculum:

- Design, construction and technology
- Health, safety and well-being
- Legal, regulatory and statutory compliance
