

## The Specification & Design Considerations of Wall, Corner & Door Protection Systems

### Learning Aims

#### Why specify a wall protection system?

- Damage prevention
- Reduce maintenance costs
- Enhance aesthetics and design
- Way finding and highlighting
- Achieve latest standards and guidance

#### Standards and guidance

- Understanding the building regulations, health building notes, British Standards, BREEAM, Building Bulletin

#### Design considerations for different applications

- Disabilities, Dementia and Aging population

#### Wall Protection options, features and benefits

- Textured Sheet, Design Sheet
- Bespoke Printed Sheet, Hygienic Sheet

#### Protection zones for different environments

- Main considerations
- Consider zoning your project
- Direct & Indirect Protection

#### RIBA Core Curriculum:

- Design, construction and technology
- Health, safety and well-being
- Legal, regulatory and statutory compliance
