

Carpets

Project: Nuffield Health, The Grosvenor Hospital Chester

Healthcare

“ Genus carpet is produced with Marquésa yarn which is easy to clean and maintain and is inherently resistant to staining and fading. ”

Karen Burman
Floorcoverings Product Manager

Nuffield Health 'The Grosvenor Hospital' has been Chester's leading private hospital since 1975. Delivering a comprehensive range of services and treatments, the hospital completed a major refurbishment in 2007.

Genus carpet in colour 'Cornfield' (light beige) has been installed in the reception and consulting rooms. The colour was chosen to complement the surrounding interior and furnishings and helps to create a fresh, clean and welcoming environment for both visitors and staff.

Genus carpet is produced with Marquésa yarn which is inherently resistant to staining and fading. The fibre is extremely easy to clean and maintain and does not require any harmful topical treatments. The unique cleaning benefits of Marquésa help to reduce maintenance costs and improve the lifecycle performance of the carpet.

Product Specified:

- Product: **Genus** (colourway – Cornfield)
- Construction: Tufted Cut Pile
- Fibre: 100 percent Marquésa SD
- Warranty: 15 year wear
