#### Gradus LED Stair Edgings Enhance Customer Safety at Cineworld Warrington

Gradus, a leading specialist in contract interior solutions, supplied its stair edgings and LED lighting solutions for Cineworld Warrington, helping to create a safe, welcoming and enjoyable cinema environment for visitors.

As part of the venue's commitment to delivering an excellent customer experience, Gradus supplied its **RXT1218L PVC-u Stair Edging** fitted with a Glacier slip-resistant insert across the cinema auditoriums. The stair edging profile provides a durable and effective solution for improving step edge visibility while helping to reduce the risk of slips, trips and falls.

To further enhance safety, Gradus Continuity LED Lighting was integrated within the stair edging profile. The subtle red illumination clearly defines step edges and circulation routes in low levels of light, enabling customers to move safely throughout the auditorium without impacting screen visibility or detracting from the cinematic experience.

In addition, Gradus LED Step Row Indicators (Alphabetical) were installed to provide clear row identification and improve wayfinding within the auditoriums. The illuminated alphabetical indicators help visitors quickly locate their allocated seating, supporting a smooth and stress-free customer journey.

#### Key Benefits of Gradus Stair Edging and LED Lighting Solutions

##### Enhanced Safety

RXT1218L stair edgings with slip-resistant Glacier inserts improve step edge definition and help minimise the risk of slips, trips and falls.

##### Improved Visibility

Red Continuity LED Lighting provides effective step illumination in darkened environments, helping customers navigate safely without causing distraction.

##### Efficient Wayfinding

LED Step Row Indicators offer clear row identification, making it easier for customers to locate their seats quickly and confidently.

##### Low Maintenance

The robust stair edging and LED lighting systems are designed to provide long-term performance with minimal maintenance requirements.

By combining a durable stair edging profile,, integrated LED lighting and illuminated wayfinding solutions, Gradus has helped Cineworld Warrington create a safer and more accessible cinema environment while maintaining the immersive atmosphere expected by today's moviegoers.
