Project: Morrisons, Newport

Retail

“ A well-specified matting system will not only increase public safety and prolong the lifecycle of surrounding floorcoverings, but will also enhance the appearance of a shop’s entrance, creating a clean, smart and welcoming first impression. ”

Chloé Taylor
Marketing Product Manager

Gradus Esplanade 1500 primary barrier matting with Boulevard 1500 wipers in Tempesta (black) was installed at Morrisons Newport. Esplanade 1500 is ideal for use in interior locations that are subject to medium to heavy foot and trolley traffic. The mat comprises an aluminium base with rigid PVC-u support strips, which provide excellent point loading.

The aluminium scrapers are interspaced with 100% polypropylene wipers, which offer excellent appearance retention properties and provide an effective surface for the removal of dirt and moisture. Entrance’s such as the Morrison’s store, are prone to heavy soiling and moisture ingress, which when removed at the point of entry, can help to reduce maintenance costs and increase public safety, by reducing the number of slips, trips and falls.

Product Specified:
