

### Cleaning and Maintenance Information

---

JC881025 & JC881050 Expansion Joint Cover

Data Sheet: Page 1 of 1 15.05.18

This leaflet has been compiled to help the user obtain optimum performance and satisfaction from their selected product:

#### Preventative Maintenance Programme

A regular scheduled maintenance programme should be employed to prevent the build up of dirt and grease, which will detract from the overall appearance of the product.

#### Daily Cleaning

Brush down the cover using a soft-bristled brush and remove dust particles by wiping with a damp cloth.

Stubborn marks such as boot blacking may be removed by means of a green scotch pad and an aluminium safe detergent. Light surface scratches can be removed with careful use of fine wire wool and buffed with a soft cloth.

On completion the cover should not be used until completely dry.

#### Recommended Cleaning Products for JC881025

Gradus has worked with Selden Research to undertake extensive testing on all Gradus products.

The cleaning products listed below are suitable for this particular expansion joint cover.

For further information about these cleaning products, including environment suitability, instructions for use and COSHH data sheets, please contact:

Selden Research Limited, Staden Business Park, Staden Lane, Buxton, Derbyshire, SK17 9RZ.
