Fixing: Bed into adhesive at the same time as tiling - as per manufacturer's instructions

Curveline Fixing: ETR300F0 profiles are also available with pre-punched fixing tabs and holes on the flange to allow curves on-site for edges and inlays.

Description

Multi-Purpose trims are designed to be used as a transition trim between different types of flooring, allowing quick and easy installation of tiles regardless of tile thickness. They are designed for installation with tiles but are also suitable for use with other types of flooring such as marble, stone, wood, industrial resin floors and natural stone.
