ESPPIJHCC: Pvc push in hinge

Description

Esplanade 6000 is constructed from either ECONYL® regenerated solution dyed nylon wipers from the Boulevard 6000 range or black pvc scraper wipers. These are supported with an aluminium base with pvc bridging strips that provide additional strength and are combined with pvc linking strips. The aluminium base is available in a choice of mill finish or a choice of three bronze anodised finishes. The ECONYL® regenerated solution dyed nylon wipers provide excellent soil and moisture retention and are available in a choice of eight colours.
