GTI MAX

FAST TRACK FLOORING

The ultimate hard wearing, high performance, fast track loose-lay flooring solution.

GTI Max is the ideal solution for heavy traffic applications and is a popular choice for retail, industrial and warehousing environments. The loose-lay tiles offer a fast renovation solution, which can be installed over most existing floors. Minimal sub floor preparation is required, as well as no adhesives. The range combines design with advanced interlocking technology, saving your clients time and money with no need to close their premises.

Typical applications:

- Retail
- Industry
- Offices
- Education
- Healthcare
- Fitness & Leisure
- Warehouses
- Airports
- Hospitality

BASICZ™

STAIR EDGINGS

BASICZ™ stair edgings offer great quality and great prices from a brand you can trust and are ideal for internal use within most commercial applications.

Featuring 2 new wide channel ramp back profiles, there are now 11 profile options to suit our most popular step shapes and common floorcovering types. We have also increased the number of available insert colours to 20, ensuring we have an option to suit your colour and LRV needs. Profiles can be curved subject to approval of a template.

Typical applications:

- Commercial Office
- Education
- Hospitality
- Healthcare

For a quick & simple installation

- Save time
- Save money
- 10 year warranty
- Rapid curing
- No more screws & plugs
- Ultra strong bond

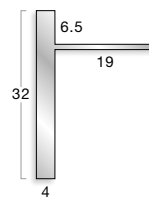

Profile can be curved subject to approval of template - contact Gradus Technical Support for further information.

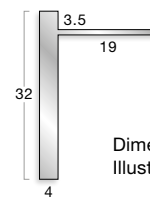

Complement your **BASICZ™** Stair Edgings with our range of welded corners

- Supplied pre-welded
- Available in 83° or 90° angles (other angles can be supplied upon request)
- Choice of left or right-hand options

BASICZ™

PVC CAPPING & COVING

The **BASICZ™** PVC Capping and Coving range allows resilient floorcoverings to be dressed up the wall to form a skirting with a neat finish.

Cove Formers help to create a rounded junction between the floor and wall for easier cleaning, whilst also preventing the accumulation of dirt and bacteria.

Capping Seals provide a decorative, neat edge where the floorcovering has been dressed up the wall to form a skirting and are typically used in conjunction with a Cove Former.

Typical applications:

- Commercial Office
- Education
- Hospitality
- Healthcare

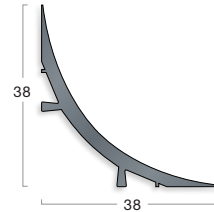

Next day delivery
to your local distributor*

Applies to orders placed
before 4pm

CLIP-TOP FX®

FLOOR TRIMS

Clip-Top fx is a two-piece product allowing design flexibility and is suitable for use in medium pedestrian and light trolley traffic commercial applications.

Tops are PVC-u and bases are offered in PVC-u for easy on-site curving or Aluminium for straights. Clip-Top fx features a comprehensive selection of profile types and sizes to suit most situations. PVC-u Tops are available in 7 colour options and are easy to replace, making these an ideal choice for sites that undergo regular refurbishments.

Typical applications:

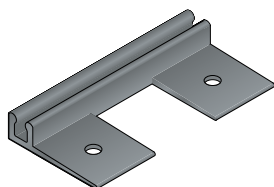

- High Street Shops
- Hotels
- Schools
- Offices

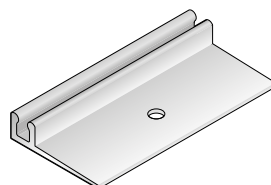

**Next day delivery
to your local distributor***

Applies to orders placed
before 4pm

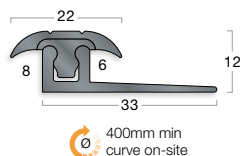

PVC-u bases are pre-punched with tabs and fixing holes for on-site curving. Latex screed should be used with resilient floorcoverings to prevent pre-punched base shadowing through.

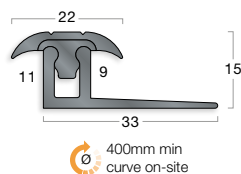

Aluminium bases have a solid flange for straight lengths.

MAT-IN-A-BOX® 1550

HYBRID BARRIER MATTING

A modular barrier matting product that is quick and easy to install and can be cut and trimmed to size on-site.

The product is constructed from 100% polypropylene wipers which are supported with a PVC-u base. The individual sections clip together on-site for quick and easy assembly and the PVC-u base incorporates flexible pvc pads for noise reduction. The 12mm gauge closed construction wipers provide an effective surface for the removal of dirt and moisture, allowing dirt to be trapped on the surface of the mat for ease of cleaning and maintenance.

Typical applications*:

- Schools
- Offices
- High Street Shops

Watch our Mat-in-a-Box video.

BOULEVARD 1500

SECONDARY BARRIER MATTING

Stock available now
from your local distributor

Fast delivery subject to distributor terms & conditions*

Boulevard 1500 is a cost effective secondary barrier matting constructed from 100% polypropylene yarn with a rubber backing and is available in a choice of 4 colours in sheet format.

It offers medium dirt removal and moisture retention and features a ribbed design that is resistant to compression, offering a superior alternative to coir matting.

Boulevard 1500 is designed to complement Mat-in-a-Box 1550 hybrid barrier matting or can be used as a stand-alone mat.

Typical applications:

- Interior circulation areas
- Interior access points
- Interior entrances
