# BASICZ™

## PVC CAPPING & COVING

**Next day delivery to your local distributor***

Applies to orders placed before 4pm

**The *BASICZ*™ PVC Capping and Coving range allows resilient floorcoverings to be dressed up the wall to form a skirting with a neat finish.**

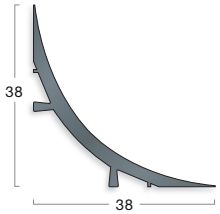
Cove Formers help to create a rounded junction between the floor and wall for easier cleaning, whilst also preventing the accumulation of dirt and bacteria.

Capping Seals provide a decorative, neat edge where the floorcovering has been dressed up the wall to form a skirting and are typically used in conjunction with a Cove Former.

**Typical applications:**

- Commercial Office
- Education
- Hospitality
- Healthcare

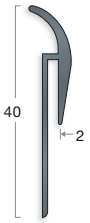
### Cove Former



Black

### Capping Seals

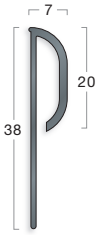
**BSXPCS1**



Black

- For use with 2mm resilient floorcoverings

**BSXHCS2 FLX** *(2.00m)*



**CBSXHCS2 FLX** *(25m coils)*
