### Wall Protection - SureProtect Artworx Sheet

Data Sheet: Page 1 of 1  
DW April 2024

This leaflet has been compiled to help the user obtain optimum performance and satisfaction from their selected product:

#### **Maintenance Programme**

A regular scheduled maintenance programme should be employed to prevent the build-up of dirt and grease, which will detract from the overall appearance of the product.

#### **Cleaning the Sheet:**

In order to maintain the product in good condition, regular cleaning may be permitted using suitable household cleaning agents. The finished lacquer coating provides partial resistance against chemical attack and light abrasion.

- Use lukewarm water to rinse and soften dirt.
- A solution of lukewarm water and ordinary household cleaner (non-bleach) or mild soap for cleaning.
- A sponge or soft cloth should then be used to gently remove dirt and grime.

#### **However, do not:**

- Scrub the sheet with brushes or sharp implements.
- Use squeegees.
- Use harsh solvents for prolonged periods of time, other than those listed, or any abrasive cleaners.
- Avoid cleaners of a highly alkaline composition.

Always finish a cleaning cycle by rinsing with clean water.
