Description

Gradus High Impact PVC-u Corner Guards provide heavy duty protection against impact from wheeled traffic. They are modular in design for easy installation and replacement in the event of damage and comprise a replaceable PVC-u cover, an aluminium or PVC-u retainer and top / bottom caps. All PVC-u covers and accessories are non-reflective, through coloured and textured to conceal the effects of impacts and abrasion. Corner guards can be selected in a contrasting colour to the wall finish for corner identification in areas used by visually impaired people, in line with BS8300-2:2018 and The Building Regulations 2010 - Approved Document M guidelines. Light Reflectance Values (LRVs) are detailed above for all colours.
