#### Description

Gradus SHR40 handrails are designed to offer pedestrian guidance and support in addition to a level of surface protection. The SHR40S features a silver anodised aluminium handrail with PVC-u accessories. The handrail and accessories are non-reflective and feature a smooth finish for a comfortable grip and ease of cleaning. Accessories include reveals to provide a tight, neat joint and contain an anti-microbial additive to inhibit the growth of bacteria.

The SHR40S Handrail should be a contrasting colour to the wall finish to aid movement around a building for visually impaired people in line with BS8300:2001+A1:2010 and The Building Regulations 2010 - Approved Document M guidelines.
